ScalES-PPM - Bug #286

Fix test for FPU precision correction code

09/19/2011 05:48 PM - Thomas Jahns

Status:	New		**Start date:**	09/19/2011
Priority:	Normal		**Due date:**	
Assignee:	Thomas Jahns		**% Done:**	0%
Category:			**Estimated time:**	0:00 hour
Target version:				

Description

Currently the test wether FPU precision correction is always invoked even if, because of SSE or otherwise correct handling of 32/64bit quantities in the FPU, no correction is necessary.

configure.ac should be improved with a test for wether correction is necessary.
